**Subject:** RE: Shantz Station Pit - Response to GRCA Comments

Hi Neal,

Thank you for the response. We have reviewed and can confirm all of our comments have been satisfactorily addressed. We are supportive of the proposed additional ground and surface water monitoring, and would welcome the opportunity to comment on any monitoring reports or other implementation updates going forward. We have no further concerns with this application.

Regards,

**Trevor Heywood**

Hi Trevor,

Please find attached our response to the GRCA's comments dated March 20, 2020.

If you have any questions, please let us know.

Thanks

Neal
